About nako pada

With our **passion** in jewelry and design, we established a jewelry company that delivers our promises to our customers. Those promises are to deliver creative designs, quality products, great customer service, and whatever we can do to achieve our customer expectations.

We are a creative jewelry company with **high quality** standard. Ensuring the quality of our products, we closely pay attention in every step of the production from designing, moulding, casting, and until finishing.

Our main focus is to create **exclusive designs** that would be produced to only one particular customer. If it is designed for you, it is for you but no one else!!

Be **different** .. Be **unique** .. It's simply with our jewelry

it's about design and quality

Creative design and high quality are our main focus for all of our products.

Stand out from your competitors. Have your own exclusive designs. Let your customers remember you.

We thank our customers by ensuring that our products are above the standard. We use **high quality** materials and high skilled gold/silversmiths.

You will see the **difference**.

"..., it is very easy and simple."

Would it cost so much to have an exclusive design?

NO. Actually, for the design, it is **free of charge**. The moulds exclusively made would be just a little extra cost which definitely is not a concern at all. Also, the designing and moulding process does not take a long time to produce.

Although, it might sound like it requires more work, it is very **easy and simple**.

We do all the work, you just tell us what you want.

It is time for a change!

Give us a [call](#) or [email us](#) today for the best offer.
